## INTERNATIONAL STANDARD FIRE HOSE REELS

PRICE ON REQUEST

Fire hose reel is located at strategic places in buildings to provide a reasonably accessible and controlled supply of water for fire extinguishing. Fire hose reel systems consist of pumps, pipes, water supply and hose reels located strategically in a building, ensuring proper coverage of water to combat a fire.

# FIRE PUMPS AND JOCKEYS

PRICE ON REQUEST

In any fire related emergencies, Fire Pumps act as the immediate first line of defense. Its primary objective is to pull water from the tanks and push them with all its might to the open overhead sprinklers, restricting the damage to a set area only.

AND THE MOST POPULAR OF ALL ...

## THE FIRE EXTINGUISHER

JK; IF ONLY FLAME SCIENCE WAS THAT EASY.

However, the most common type of fire extinguisher used today in the market is the ABC Type: capable of extinguishing almost all types of fire, be it electric, oil or a kitchen stove causing it.

With the ABC Type, Water Co2 is another Type which uses an instant cooling effect to cut the flames.

By request, we also provide Mechanical Foam Type and Dry Chemical Powder Type Extinguishers as well.

# HYDRANT

## THE FIRE HYDRANT SYSTEM

However, the most common type of fire extinguisher used today in the market is the ABC Type: capable of extinguishing almost all types of fire, be it electric, oil or a kitchen stove causing it.

With the ABC Type, Water Co<sub>2</sub> is another Type which uses an instant cooling effect to cut the flames.

By request, we also provide Mechanical Foam Type and Dry Chemical Powder Type Extinguishers as well.

## SUPPLY

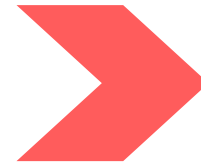

We supply and deliver all the items you could possibly need to build an gold standard high functioning automatic/ non-automatic Fire Safety System

# WHAT DO WE DO?

## INSTALL INSTALL

As mentioned earlier, in our two decades long journey in this industry. It wouldn't be too prudent of us to call ourselves a pioneer. A veteran in the art of building an industry leading Hydrant System/ Autonomous Fire Fighting Safety and Security System.

## MAINTAINCE

Every mechanical system over the course of years requires some degree of maintenance which for some premium clients we provide free of charge for the first few years.

## our mission.

In short, we aim to expand our brand all over **North East India** like white over rice within the next 10 years. We aim to built an industry standard customer service, unlike any other in the fire-fighting segment. We're in for the long haul.

## our vision.

Our ultimate goal is to build a Brand synonymous with Safety & Security combined with the power of modern day Technology. Made in India. With Pride.

## about us.

Hailing from the foothills of Darjeeling, **Torrential Ceaseflame Pvt. Ltd.** today has expanded across various parts of Bengal, Bihar and Sikkim. We are proud to have had the opportunity to work with our neighbors at Nepal and Bhutan. And in this endeavor of 20+ years, we have garnered a vast expanse of experience and knowledge which we ardently administer in our projects.
